### **Bio 214 Microbiology 4 Credits**

Semester and Year:

Email: Contact via Canvas email

### **Required Textbook(s):**

Access Card: Includes the Virtual Lab and E-book

Talaro, K. P., & Chess, B. Connect and LearnSmart Labs Access Card for Foundations in Microbiology. New York: McGraw-Hill, 2017. Talaro, Kathleen Park. (Includes e-book - Foundations in Microbiology, 11e New York: McGraw-Hill, 2017.)

ISBN 9781260451320

Students are required to purchase the items listed above prior to the start of the course. Look into all of your options - new, used, rental or e-books. If you choose a rental option, be sure to understand the policies and the due dates for the returns. While you have the option to obtain your course materials from any source, ordering from the MU Book Store can be a convenient option. Please note that you can also charge bookstore purchases to your student account or use your MU financial aid if applicable. Visit [the Marian bookstore \(Links to an external site.\)](#) .

### Textbook Resources Website:

Accessing McGraw-Hill Connect Labs

1. Click McGraw-Hill Connect (left navigation) of our course
2. Click Begin
3. Click Register
4. Insert your email address
5. Insert your registration code or purchase the access directly here for \$122.50 USD

### Additional Resources:

The Mother Teresa Hacklemeier Memorial Library at Marian University provides various databases <http://www.marian.edu/library/Pages/default.aspx> ([Links to an external site.](#))

### Course Description:

A study of bacteria, viruses, and other microorganisms; their morphology, development, and function; techniques of isolation, cultivation, and identification; with emphasis on structure, metabolism, role in disease, and immune responses to infection. Three lecture hours per week and three lab hours per week. This course satisfies general education curriculum standards for the development of scientific knowledge.

### Student Learning Objectives:

Upon successful completion of this course, students will be able to:

1. Be able to list diverse forms of microbial life on the planet earth and key fundamental discoveries in microbiology that shaped our lives. Differentiate prokaryotic and eukaryotic organisms including non-cellular virus particles based on their unique characteristics and living conditions in nature.
2. Outline the currently used procedures applied to safely-handle microbiological samples in a hospital or clinical environment or during transport to an analytical laboratory.
3. Explain the appropriate physical, chemicals (e.g. alcohol, antimicrobials) and radiation procedures for the removal or suppression of growth of microbes in various materials including human tissue.
4. Describe standard procedures for microbial control that include but not limited to disinfection of living tissue by applying aseptic technique, or procedures for sterilizing surgical tools, and more broadly, pasteurization or quality control of products in health facilities and food or biotechnology industry.
5. Discuss various stages in the progression of disease caused by bacteria. Discuss bacteria-specific virulence factors required for entry, colonization or biofilm formation, and spread of infection by shedding as part of human waste.
6. Explain human-microbe interaction with an overview of the human immune system and how it defends against bacteria and viruses by various levels of innate and acquired immunity (vaccination).
7. Identify the importance of human resident microflora and its recently discovered links to human health. Discuss few examples of prevailing conditions which may allow opportunistic human pathogens to cause disease.
8. Outline some examples of human pathogens of global importance and their mode of infection. Methods useful for their isolation and identification, monitoring or source tracking of infectious diseases or epidemiology, and impact on public health and global economy will be discussed.

Teaching Strategies:

Audios, discussion, assigned readings, web-based activities, and assignments

**Assignments & Assessment Methods:**

<b>Performance assessment:</b>	<b>Total Points</b>
4 lecture exams	400 points
4 lecture quizzes	100 points
7 homework assignments	175 points
5 discussion board	125 points
Viral Presentation	50 points
Lab Reports	135 points
Total	985 points

Methods of Evaluation:

The student is expected to demonstrate competence through class participation, written exams, homework assignments, laboratory exercises, and written and oral presentations.

Grading Scale:

The grading scale for this course is:

<b>Letter Grade</b>	<b>Percentage</b>
A	94-100%
A-	90-93.9%
B+	87-89.9%
B	83-86.9%
B-	80-82.9%
C+	77-79.9%
C	73-76.9%
C-	70-72.9%
D+	65-69.9%
D	60-64.9%
F	<60%

Course Policies:

Academic Integrity:

The search for truth, the transmission of knowledge, and the facilitation of moral development are the avowed goals of institutions of higher education around the world. Members of the Marian University community are expected to maintain the highest level of honesty in every phase of their academic lives and to help create and promote an ethical atmosphere in which the goals of the University can be fully realized. All Marian University students are responsible for knowing and avoiding academically dishonest behaviors.

Plagiarism (using the ideas and/or words of someone else without proper reference) and other forms of cheating are not tolerated. *Students guilty of plagiarism or other forms of cheating are subject to disciplinary action that may include failure in the course or expulsion from the University.* For more details on plagiarism, see reference materials posted in the Introduction module. Thus, be sure to properly cite and reference all sources used.

**Late Policy & Due Date Extensions:** Acceptance of work submitted past the due date or requests of due date extensions, including exams, may be considered in the event of unforeseen, documented hardships, such as medical emergencies, documentable technical issues, death of a loved one, etc. However, simply forgetting, time zone differences, going on vacation, or not performing as well as intended are not acceptable excuses.

**Exam Retakes:** Exams retakes are different than requesting and being granted an extension on an exam. There are no exam retakes allowed in this course. Once you open an exam, you're stating that you have prepared adequately for the exam and you're accepting the results of the exam.

**Extra Credit:** There is no extra credit in this course.

Withdrawal:

It is the responsibility of the student to know and follow the University policies on academic integrity and class withdrawal.

Students with Disabilities:

Students with disabilities who have proper documentation must contact the Director of Academic Support Services in the Counseling and Consultation Services office to set up a documentation review. If after the review, accommodations are deemed appropriate, an accommodation plan will be developed. As per the ADA (Americans with Disabilities Act) no accommodations can be provided until this process is complete.

Accommodation/Accessibility Statement: Marian University, through policy and practice, is committed to providing equitable access to learning opportunities for all students. If you experience, or anticipate experiencing, barriers to your education due to a disability please contact the Personalized Learning Center by emailing [plc@marian.edu](mailto:plc@marian.edu) or calling **317.955.6540** to start a conversation.

Although a student may request an accommodation at any time, it is best to initiate the accommodation process as early as possible as it may take time to complete the interactive process and accommodations will not be implemented retroactively. If a reasonable accommodation is determined, a Course Accommodation Letter will be created at the Personalized Learning Center for the student to provide to their faculty members with information related to their accommodations. Faculty will not set up disability-related accommodations without a current semester Course Accommodation Letter.

Faculty, Staff or Student questions or concerns regarding the accommodation process can be sent to [plc@marian.edu](mailto:plc@marian.edu) or Mandie Greiwe, [agreiwe@marian.edu](mailto:agreiwe@marian.edu), Director of the Personalized Learning Center.

Diversity and Inclusivity: Marian's adult and online programs at Marian University is a collaborative academic community committed to fostering a diverse and inclusive community across the intersections of races, ethnicities, religions, sexual orientations, gender identities, ages, disability status, socio-economic backgrounds, political perspectives, cultures, immigration status, and national origins. I am committed to creating a safe, just environment of respect for students, faculty, and staff following our shared Franciscan values. I believe that every individual can improve their skills, learn from their mistakes, and be successful in this course.

**\*\*Any changes to this syllabus will be communicated to the students.**
